Stowaways Nearly Starved

San Francisco, June 4.-When a sealed boxcar which apparently had ome intact from Galveston, Tex., was opened in the Southern Pacific freight yards today, sixteen half-starved Chinese were found, in addition to half a load of heavy steel. The car was ten days on the road and had been in the yards for forty-eight hours. The Chinese had a little water and a few crackers left, but were weak and hollow-eyed. One of them showed a certificate entitling him to admission into this country, but the others were turned over to the immigration authorities. It is supposed by the officials that the men were smuggled across the Mexican border and placed in the car at El Paso, the seals on the car being replaced with others. There evidently was an arrangement for their release here, but in some way it miscarried.
